MODEL 1010 RA VOLTAGE REDUCER 24 V DC to 12 V DC - 10 amp continuous.

Product Overview

The 1010 has complete electronic over-voltage protection and is ideal for use with mobile radios, radio and hi-fi equipment or it will power a refrigerator. It is conservatively rated at 10 amps continuous load, current limited at 12 amps (+/- 10%). The design of the unit incorporates special protection against jump starts and other voltage spikes experienced in automotive and marine use.

-  Operates from 16 to 32 volts.
-  Cool running & small size (150mm x 80 x 45). Fits anywhere.
-  Fully protected load output, isolates the load in 3/1000 second in the event of failure or over-load, re-connecting automatically if it is just a spike. The ultimate in protection.
-  This model is splash proof, designed to be fitted inside the vehicle.
-  Also available with plugs and sockets.
-  12 months full warranty.
