### MODEL 505 RA VOLTAGE REDUCER 24 V DC to 12 V DC

#### Product Overview

The 505 has complete electronic over-voltage protection and is ideal for use with radios, mobile radios or CB radios. It is conservatively rated at 7 amps load (50% Duty, or 5 amps 100%), current limited at 8.5 amps (+/- 10%). The design of the unit incorporates special protection against jump starts and other voltage spikes experienced in automotive and marine use.

-  Wide operating range. Operates from 16 to 32 volts D.C.
-  Cool running & small size ( 80 mm x 70 x 40). Fits anywhere.
-  Fully protected load output, isolates the load in 3/1000 second in the event of failure or overload, re-connecting automatically if it is just a spike. The ultimate in protection.
-  This model is designed to be fitted inside the vehicle.
-  12 months full warranty.
